

KSEIBI 24-Piece Ratcheting Combination Wrench Set, SAE & Metric

One set for SAE and metric jobs

Kseibi · 123975

Highlights

- 24-piece set covers both SAE and metric fasteners
- Metric sizes from 8 mm to 19 mm
- SAE sizes from 1/4 in. to 7/8 in.
- Made from chrome vanadium steel
- Chrome-plated surface for lasting protection
- Ratcheting box end speeds up fastening work
- Open-end side allows quick fastener access
- Portable storage rack keeps wrenches organized
- Handy carry handle for transport and storage
- Ideal for automotive, workshop, and home repair

Key Features

- Dual measurement coverage — Includes both metric and SAE wrench sizes, so you can handle a wider range of fasteners without switching between separate sets.
- Ratcheting combination design — Combines an open end for quick placement with a ratcheting box end that helps maintain progress with less repositioning.
- Chrome vanadium construction — Built from chrome vanadium steel to provide the strength and durability expected for regular repair and maintenance tasks.
- Chrome-plated finish — The chrome-plated surface adds protection and gives each wrench a smooth, easy-to-clean exterior.
- Organized storage rack — Supplied in a compact holder with carry handle to keep all 24 wrenches together and ready to grab when needed.
