

Kseibi 8" Carpenter's Pincer with PVC-Coated Handles

Built to Grip, Twist and Pull

Kseibi · 141210

Highlights

- ❑ Made from durable #55 carbon steel
- ❑ Ideal for pulling nails and general carpentry tasks
- ❑ Black surface with polished head finish
- ❑ Smooth PVC-coated handles for a comfortable grip
- ❑ 8" / 200 mm size balances leverage and control
- ❑ Rounded pincer head helps in tight working areas
- ❑ Bright orange handles are easy to spot in the toolbox
- ❑ Suitable for workshop, site and home repair use
- ❑ Designed for gripping, twisting and extraction work
- ❑ Supplied in hanging card packing

Key Features

- ❑ Carbon Steel Construction — Made from #55 carbon steel for dependable strength in everyday pulling, gripping and twisting applications.
- ❑ Polished Working Head — The polished head supports smooth contact at the working end while the black surface gives the body a durable, practical finish.
- ❑ Comfortable Coated Handles — Smooth orange plastic-coated handles help provide a secure, comfortable feel during repeated use.
- ❑ Compact 8 Inch Format — At 8 inches or 200 mm, this pincer offers a useful combination of control, reach and leverage for close work.
- ❑ Versatile Carpenter's Tool — Well suited for nail pulling, light demolition prep, wire handling and general carpentry tasks in workshop or on site.
