One set for 8-32 mm fastening jobs

Kseibi · 141442

Highlights

- 2-piece universal wrench set
- Fits fastener sizes from 8-32 mm
- Useful for mixed-size nuts and bolts
- Black rubber handle areas for grip
- Orange plastic handle body
- Universal jaw profile adapts to sizes
- Helps reduce frequent tool changes
- Suitable for home, garage and workshop use
- Hanging holes for simple storage
- Supplied in blister card packing

Key Features

- Wide 8-32 mm range — Designed to handle a broad spread of fastener sizes, making the set useful for varied repair and maintenance tasks.
- 2-piece set — Includes two universal wrenches for added flexibility across different jobs and better control when working with fittings.
- Rubber-coated grip areas — Black rubber handle sections help provide a steadier, more comfortable hold during tightening and loosening.
- High-visibility handle design — Orange plastic handles are easy to spot in toolboxes, drawers and work areas, helping you find the tool faster.
- Ready for storage or display — Supplied in blister card packing, suitable for retail presentation and convenient storage before first use.
