

Kseibi 8 in Mini Bolt Cutter 200 mm

Compact cutter for controlled power

Kseibi · 141565

Highlights

- Compact 8 in / 200 mm size for easy carrying and storage
- 65Mn blade construction for dependable cutting performance
- Made from high quality tool steel
- Black blade finish for a clean, durable working surface
- Orange 158C plastic handles for visible, easy handling
- Ridged handle texture helps improve grip
- Compact head suits tighter working spaces
- Locking loop helps keep the tool closed in storage
- Good choice for toolbox, workshop or site use
- Designed for controlled cuts on smaller tasks

Key Features

- Compact 8 in size — The 8 in / 200 mm format is easy to carry, store and use where larger cutters feel bulky or awkward.
- 65Mn cutting blades — Fitted with 65Mn blades to provide the strength and cutting edge needed for routine workshop and site tasks.
- High quality tool steel body — Built from high quality tool steel for a solid, durable feel and reliable performance in regular use.
- Grip-focused handle design — Orange 158C plastic handles with visible ribbing help you maintain a steadier, more comfortable hold.
- Convenient storage lock — A visible locking loop keeps the handles together when stored, making the cutter easier to secure and transport.
