- Orange and black two-tone handle for easy visibility
- Black TPR grip zones help improve comfort
- Black surface finish for a clean professional look
- Designed for controlled, repeatable stripping tasks
- Suitable for electrical, repair and workshop use
- Compact hand tool format for easy storage
- Supplied in blister card packing

Key Features

- Automatic stripping action — Helps speed up routine wire preparation and supports more consistent handling during repeated stripping tasks.
- Durable metal construction — Made from zinc alloy and Cr12MoV material for a dependable build suited to regular workshop and electrical use.
- Comfort-focused grip — The orange plastic coating with black TPR grip areas helps provide a secure, comfortable hold while you work.
- Practical 8 inch size — At 8 inches 200 mm, it offers a useful balance of control, leverage and easy handling for everyday tasks.
- Easy-to-spot finish — The orange and black two-tone design is easy to identify in toolboxes, benches and busy work areas.
