

KSEIBI Multi-Function Crimping Plier

Cut, strip and crimp with one tool

Kseibi · 141725

Highlights

- 3-in-1 design for cutting, stripping and crimping
- Clearly marked jaw sections help accurate wire setup
- Comfortable orange grips support controlled handling
- Multi-position head suits common wiring tasks
- Helps reduce tool changes during electrical work
- Compact hand-tool format for toolbox convenience
- Suitable for maintenance and repair applications
- Dark-finish metal body for a professional look
- Designed for repeatable cable prep and terminal work
- Easy-to-spot handles stand out in busy work areas

Key Features

- Multi-function head — Combines cutting, stripping and crimping functions in one tool for efficient wire preparation and connector work.
- Marked working areas — The jaws feature visible labels and sizing marks to help position wire and terminals more confidently.
- Comfort-grip handles — Bright orange grips are shaped for a secure hold, improving comfort and control during repeated use.
- Practical for electrical jobs — Well suited to common maintenance, installation and repair tasks where wires need preparing and terminating.
- Toolbox-ready design — A compact, all-in-one format helps save space and keeps essential wiring functions close at hand.
