Clean cuts on PVC up to 42 mm

Kseibi · 141740

Highlights

- Cuts PVC pipe up to 42 mm
- 3Cr13 stainless steel blade
- Ratcheting action for controlled cutting
- Curved jaw helps hold pipe in place
- Compact one-hand style design
- Orange painted surface for visibility
- Suitable for plumbing and irrigation tasks
- Built for quick, neat pipe preparation
- Stainless steel construction
- Supplied in double blister card packing

Key Features

- 42 mm cutting capacity — Sized to handle PVC pipe up to 42 mm, making it suitable for many common installation and repair jobs.
- 3Cr13 stainless steel blade — The blade uses 3Cr13 stainless steel for dependable cutting performance and durability in regular use.
- Ratcheting cutting action — The ratcheting mechanism helps apply pressure progressively for more controlled cuts with less strain.
- Visible painted finish — Finished in orange painted coating, the cutter is easy to identify quickly in tool bags, vans and workshops.
- Job-ready retail packing — Supplied in double blister card packing for straightforward storage, handling and point-of-sale presentation.
