

Kseibi MC-16 16mm Tube Cutter

Compact control for clean tube cuts

Kseibi · 141850

Highlights

- ❑ Cuts tubing up to 16 mm
- ❑ Painted aluminum body for lightweight durability
- ❑ Compact design suits tight working areas
- ❑ Black adjustment handle for controlled tightening
- ❑ Roller-guided cutting action for steady use
- ❑ Designed for clean, tidy tube cutting
- ❑ Orange body is easy to spot in the toolbox
- ❑ Simple hand-operated screw adjustment
- ❑ Suitable for workshop, install and repair tasks
- ❑ Supplied in blister card packing

Key Features

- ❑ 16 mm cutting capacity — Sized for tube cutting tasks up to 16 mm, making it a practical option for small-diameter tubing work.
- ❑ Aluminum body — The body is made from aluminum, helping keep the tool sturdy while remaining comfortable to handle.
- ❑ Painted finish — A painted surface finish adds protection and gives the tool a durable, work-ready appearance.
- ❑ Compact cutter format — The small overall shape is well suited to controlled use where access is limited and larger cutters are less convenient.
- ❑ Easy adjustment handle — The black screw-style handle is designed to help you fine-tune pressure and maintain control during cutting.
