

KSEIBI 10" Straight Aviation Tin Snips

Straight cuts with confident control

Kseibi · 142025

Highlights

- Straight-cut aviation snips for controlled cutting
- Chrome Vanadium blade material for durability
- 10" / 250 mm size balances leverage and control
- Sandblasted blade head surface for a work-ready finish
- Ergonomic black and orange grip design
- Non-slip handle texture helps confident handling
- Latch keeps the snips closed for storage
- Compound-action style design supports easier cutting
- Suitable for trade, maintenance, and DIY use
- Supplied in hanging card packing

Key Features

- Straight-Cut Performance — Designed for straight cutting tasks where control and cut direction matter, helping you work more accurately on sheet material.
- Chrome Vanadium Blades — Made with Chrome Vanadium blade material for dependable strength and durability in regular workshop and site use.
- Sandblasted Blade Head — The blade head features a sandblasted surface finish for a practical, professional look and a work-ready feel.
- Comfort Grip Handles — The contoured black and orange handles shown in the image are shaped for a secure grip and more comfortable operation.
- Compact 10-Inch Size — At 10 inches / 250 mm, these snips offer a useful mix of cutting leverage, control, and easy handling.
