

Kseibi 190mm Garden Pruning Shears

Clean cuts for everyday garden care

Kseibi · 143045

Highlights

- 190mm size offers controlled one-hand pruning
- Stainless steel blade head for clean garden cuts
- High quality tool steel body for dependable strength
- Polished surface helps with easy wipe-clean care
- Curved blade shape suits general pruning tasks
- Spring-loaded action supports repeated cutting
- Orange painted finish is easy to spot outdoors
- Suitable for stems, shoots and light branches
- Integrated hanging loop for simple storage
- Supplied in blister card packing

Key Features

- Polished stainless steel blade head — The blade head is made from stainless steel with a polished finish for neat cutting performance and simple post-use cleaning.
- Durable tool steel construction — Made with high quality tool steel to provide the strength needed for regular pruning and trimming around the garden.
- Compact 190mm length — The 190mm size gives you a manageable, easy-to-control tool for everyday cutting, shaping and maintenance work.
- Spring-assisted operation — The visible spring mechanism helps the handles reopen between cuts, supporting smoother repeated use during longer tasks.
- Bright orange painted finish — The orange painted surface stands out clearly in outdoor spaces, helping you find your shears quickly when working or storing them.
