

Kseibi Stubby Phillips Screwdriver PH2 x 38mm

Built for tight spaces

Kseibi · 151030

Highlights

- PH2 x 38 mm tip size for common Phillips fastening tasks
- Stubby design helps access confined or awkward spaces
- CR-V construction for everyday durability
- Chrome-plated shaft for a clean, hard-wearing finish
- Orange and black handle is easy to spot in a toolbox
- Black TPR grip zones improve hold and control
- Rounded handle shape fits comfortably in the palm
- Textured grip areas help reduce slipping during use
- Well suited to repair, installation and maintenance work
- Supplied in hanging card packing

Key Features

- Compact stubby format — Short overall design makes it easier to drive or remove screws in places where longer screwdrivers cannot fit comfortably.
- PH2 x 38 mm configuration — A practical Phillips size for a wide range of common fastening jobs, paired with a compact 38 mm blade length for close access.
- CR-V shaft — Made from CR-V material to provide the strength and durability expected for regular workshop and household use.
- Chrome-plated finish — The chrome-plated shaft adds a durable surface finish and gives the tool a clean, professional appearance.
- Two-colour TPR grip handle — Orange and black plastic-coated handle with black TPR grip sections offers a secure, comfortable hold and good visibility in storage.
