

Kseibi Slotted Screwdriver with Hex Bolster Handle

Strong CR-V blade, confident everyday grip

Kseibi · 151135

Highlights

- CR-V blade for dependable everyday strength
- Chrome-plated surface finish for a clean, durable exterior
- Slotted tip for flat-head screw applications
- Orange and black handle is easy to spot in the toolbox
- Black TPR grip zones help improve control in hand
- Plastic-coated handle supports comfortable use
- Fixed blade design for routine fastening and loosening
- Suitable for workshop, garage and home repairs
- Designed for controlled torque and steady handling
- Practical screwdriver for assembly and maintenance tasks

Key Features

- CR-V Blade Construction — Made from CR-V material to provide the strength and reliability needed for regular screwdriving tasks.
- Chrome-Plated Finish — The chrome-plated surface gives the blade a durable, clean-looking finish suited to repeated use.
- Two-Colour Handle — Finished in orange and black, the handle is easy to identify quickly on the bench or in a tool bag.
- TPR Grip Sections — Black TPR areas on the handle help create a more secure hold for improved control during fastening.
- Slotted Screwdriver Format — Designed for flat-head screw applications in assembly, repair and general maintenance work.
