

Kseibi 14 cm Circuit Tester

Compact tester for quick circuit checks

Kseibi · 153736

Highlights

- 14 cm tester for compact handling
- Chrome vanadium construction
- Transparent handle for visible test light
- Attached lead with alligator clip
- Slim probe reaches contact points easily
- Useful for routine electrical checks
- Compact format for toolbox storage
- Easy-to-use probe and clip design
- Blister card packed for display or storage
- Suitable for workshop and garage tasks

Key Features

- Compact 14 cm Size — Designed for easy handling and better control when working in tighter spaces or carrying it in a toolbox.
- Chrome Vanadium Build — Made from chrome vanadium for a durable construction suited to regular workshop and maintenance use.
- Transparent Handle — The clear amber handle helps you see the internal test light more easily during circuit checks.
- Lead and Alligator Clip — Comes with an attached wire lead and clip for quick connection during straightforward electrical testing.
- Pointed Probe Tip — The slender metal tip is shaped for precise contact with terminals and test points.
