

Kseibi 400cc Steel Grease Gun with Hose & Steel Tube

Reliable lubrication with flexible reach

Kseibi · 211335

Highlights

- 400cc capacity for routine lubrication tasks
- Steel body for durability in workshop use
- 400 mm length offers balanced handling
- Comfortable plastic handle for better grip
- Includes 300 mm flexible hose
- Includes 150 mm steel tube
- Painted finish for added surface protection
- Suitable for garages, machinery and maintenance
- Helps reach fittings in tight or awkward areas
- Supplied boxed and ready for storage

Key Features

- Durable steel construction — Made from steel for dependable strength and long service life in regular maintenance environments.
- 400cc grease capacity — Provides a practical grease volume for servicing multiple lubrication points before refilling.
- Comfortable plastic handle — Designed to improve grip and handling during repeated pumping and controlled grease application.
- Flexible and rigid delivery options — Comes with a 300 mm flexible hose and a 150 mm steel tube to suit different access requirements.
- Workshop-ready format — The 400 mm body size gives a useful combination of reach, control and everyday usability.
