

Kseibi Incandescent Work Light with 10m Cable

Long-reach light for workshop and site use

Kseibi · 211485

Highlights

- 10m black cable for extended working reach
- 230 V 50hz setup with European plug
- Galvanized lamp box for durable use
- Zinc plated construction for jobsite practicality
- Protective wire guard helps shield the bulb area
- Orange handle is easy to spot in busy spaces
- Handheld design for portable task lighting
- Visible hanging hook for hands-free placement
- Suitable for workshop, garage and maintenance use
- Hanging card packed for straightforward display

Key Features

- Extended 10m Cable — The long black cable helps you reach benches, vehicles and work areas with less need to move the power source.
- Galvanized Lamp Box — A galvanized lamp box supports reliable everyday use in workshops, garages and contractor environments.
- Protective Guard Design — The wire guard around the lamp area adds protection where tools and equipment are in constant motion.
- Easy-Grip Orange Handle — The bright orange handle is easy to identify and carry, helping you position light exactly where it is needed.
- Hands-Free Hanging Hook — A visible hook lets you hang the light overhead or nearby for more convenient illumination while you work.
