

Kseibi Foldable Tripod LED Camping Lantern Work Light

One light, multiple setups

Kseibi · 211555

Highlights

- LED lantern with foldable tripod design
- Use as a compact lantern or raised work light
- Extendable stand helps light a wider area
- Tripod legs fold out for stable placement
- Protective outer frame surrounds the light body
- Simple onboard button controls on the base
- High-visibility orange and black finish
- Suitable for camping, roadside and task lighting
- Compact form is easy to carry and store
- Hands-free setup for practical area illumination

Key Features

- 3-in-1 lighting setup — Use it as a standalone lantern, a low tripod light, or an elevated work light depending on the job and the space.
- Foldable tripod base — The legs fold out quickly for a stable freestanding setup and fold back in for easier transport and storage.
- Extendable pole design — Raise the light higher when you need broader coverage for tasks, camp setup, or emergency visibility.
- Protected lantern housing — The light body is surrounded by a sturdy outer frame that helps protect it during handling and transport.
- Easy-access controls — The base-mounted buttons shown in the image make operation straightforward when setting up light in low-visibility conditions.
