

Kseibi 3-Tier Heavy-Duty Steel Utility Cart

Three tiers of organised mobile storage

Kseibi · 221029

Highlights

- 3-tier design keeps tools, parts and supplies organised
- Steel tray construction suits workshop and garage use
- Raised tray edges help keep contents contained
- Compact 665x365x785 mm footprint fits busy work areas
- Integrated side handle supports easy steering
- Caster wheels allow smooth repositioning
- Open access shelves speed up loading and unloading
- Bright orange trays improve visibility of stored items
- Rigid upright frame supports everyday utility tasks
- Ideal as a mobile tool, parts or service cart

Key Features

- Three-tier storage layout — Three separate tray levels make it easier to sort tools, consumables and parts for faster access during work.
- Steel cart construction — Steel trays and frame components provide a durable structure suited to regular use in practical work environments.
- Raised tray sides — Each tray features raised edges to help keep items in place when the cart is moved around the workspace.
- Mobile workshop design — Caster wheels and a built-in handle make it easier to move stored equipment between tasks and workstations.
- Space-efficient size — With overall dimensions of 665x365x785 mm, the cart offers useful storage capacity in a compact footprint.
