

KSEIBI 600g Axe with Fiberglass Handle - Canyon Black

Compact power for everyday chopping

Kseibi · 274151

Highlights

- ❑ 600 g axe for controlled chopping and cutting tasks
- ❑ Drop-forged carbon steel head for dependable strength
- ❑ Forged steel head supports long-term durability
- ❑ Ground cutting edge for efficient, clean strikes
- ❑ High-frequency hardened head for lasting performance
- ❑ Black finish head with textured coating
- ❑ Fiberglass handle built for tough regular use
- ❑ Black plastic-dipped grip for secure handling
- ❑ Head joint reinforced with black resin adhesive
- ❑ Includes protective sheath for storage and transport

Key Features

- ❑ Drop-Forged Carbon Steel Head — Made from drop-forged carbon steel for strength and dependable performance in repeated chopping and cutting work.
- ❑ Ground, Hardened Edge — The head is ground and high-frequency hardened to support an effective edge and reliable striking action.
- ❑ Fiberglass Handle — Built with a fiberglass handle for durable everyday use and a practical balance of strength and handling.
- ❑ Secure Grip Finish — The black plastic-dipped handle helps provide a confident grip for better control during use.
- ❑ Protected for Carry and Storage — Supplied with a protective sheath as shown, helping keep the blade covered when stored or transported.
