

# Kseibi 600g Fiberglass Handle Axe - Sausalito Green

Compact cutting power with confident grip

Kseibi · 274152

## Highlights

- ❑ 600g axe suited to general chopping and outdoor tasks
- ❑ Drop-forged carbon steel head for lasting durability
- ❑ Ground cutting edge for clean, controlled strikes
- ❑ High-frequency hardened edge for demanding use
- ❑ Black finish head with textured coating
- ❑ Two-colour green and black plastic-coated handle
- ❑ Black TPR grip zones help improve handling
- ❑ Head hole filled with black resin adhesive
- ❑ Compact design is easy to store and carry
- ❑ Protective sheath visible in the product image

## Key Features

- ❑ Drop-Forged Carbon Steel Head — The axe head is made from drop-forged carbon steel to deliver dependable strength and durability for repeated chopping work.
- ❑ Hardened Ground Edge — A ground, high-frequency hardened cutting edge helps provide effective cutting performance and supports long-term edge resilience.
- ❑ Secure Head Assembly — The head hole is filled with black resin adhesive, reinforcing the connection between head and handle for confident use.
- ❑ Comfort-Focused Grip — The green and black plastic-coated handle with black TPR grip areas is designed to improve comfort, control and hold during use.
- ❑ Compact Everyday Versatility — With a 600g head weight and compact form, this axe is well suited to kindling, light branch work, campsite tasks and general maintenance.
