

Kseibi PROGRIP 2000g Splitting Axe

Power and grip for cleaner splits

Kseibi · 274178

Highlights

- 2000g splitting axe for forceful wood splitting
- Drop forged carbon steel head for strength
- Ground, high-frequency hardened working edge
- Black finish head with textured coated poll
- Orange and black PROGRIP handle for visibility
- Black TPR grip zone helps improve hold
- Resin-filled head connection supports durability
- Rubber protective cover included on the head
- Hammer-style poll adds striking versatility
- Built for firewood, logs and outdoor chopping tasks

Key Features

- Drop Forged Carbon Steel Head — The head is made from drop forged carbon steel to provide the strength and toughness needed for repeated splitting work.
- Hardened and Ground Finish — A ground, high-frequency hardened head supports dependable cutting performance and durability in regular use.
- PROGRIP Handle Design — The two-color plastic-coated handle with black TPR grip area is designed to promote a secure, controlled hold.
- Solid Head Assembly — The head hole is filled with black resin adhesive, helping create a firm connection between head and handle.
- Protective Head Cover — A rubber protective cover helps protect the blade area during storage and transport when the axe is not in use.
