

Kseibi Crown Plastering Trowel with Wooden Handle 28 x 12 cm

Smooth control for everyday plastering

Kseibi · 281920

Highlights

- 28 x 12 cm blade size for broad, controlled coverage
- #45 carbon steel blade for dependable strength
- 0.7 mm blade thickness balances feel and flexibility
- Polished surface helps smooth material application
- Anti-rust coating supports longer tool life
- Natural wooden handle offers a comfortable grip
- Raised handle design improves hand clearance
- Suitable for plastering, smoothing and finishing work
- High quality tool steel construction for regular use
- Work-ready design for professional and DIY jobs

Key Features

- Carbon Steel Blade — Made with a #45 carbon steel blade for reliable strength and consistent performance during plastering and smoothing tasks.
- Polished Working Surface — The polished blade face helps material move cleanly across the surface for neater application and finishing.
- Anti-Rust Coating — An anti-rust coating adds protection to the blade, helping it stand up better to regular jobsite use and storage.
- Natural Wooden Handle — The raw, unpainted wooden handle provides a traditional feel and comfortable control during longer working sessions.
- Practical Blade Format — Sized at 28 x 12 cm, it gives you useful coverage for plastering and smoothing without sacrificing control.
