

Kseibi ProGrip Crown Plastering Trowel 28 x 12cm

Smooth finishing with confident grip

Kseibi · 281935

Highlights

- #45 carbon steel blade for dependable finishing
- 0.7 mm blade offers responsive handling
- Polished surface helps smooth material flow
- Anti-rust coating supports longer blade life
- 28 x 12 cm size suits general plastering work
- High quality tool steel construction
- Orange and black ProGrip handle for comfort
- Black TPR grip helps reduce hand slip
- Ideal for smoothing plaster and mortar
- Balanced design for controlled finishing passes

Key Features

- Carbon steel blade — Made with a #45 carbon steel blade for the strength and consistency needed in plastering and finishing work.
- Polished, protected surface — The polished blade surface supports smoother movement, while the anti-rust coating adds everyday protection.
- Comfortable ProGrip handle — The two-tone handle combines orange plastic coating and black TPR for a secure, comfortable hold.
- Practical working size — With a 28 x 12 cm blade, it offers a versatile format for spreading, smoothing and finishing tasks.
- Responsive blade profile — The 0.7 mm thickness helps deliver controlled handling and good feedback during detailed finishing passes.
