

Kseibi Square-Notched Plastering Trowel 280 x 120mm

Even coverage with every pass

Kseibi · 281980

Highlights

- 280 x 120 mm blade for practical jobsite coverage
- 12 mm square notches help spread material evenly
- #45 carbon steel blade for dependable strength
- 0.7 mm blade thickness supports controlled handling
- Polished blade surface for smoother movement
- Anti-rust coating helps protect the blade
- High quality tool steel construction
- Orange plastic handle offers a secure grip
- Suitable for tiling, adhesive and plastering tasks
- Designed for clean, consistent application

Key Features

- 12 mm Square Notches — Square notches are designed to comb adhesive or similar materials into an even pattern for more consistent coverage.
- 280 x 120 mm Blade — The blade size offers a useful balance of coverage and control for tiling, plastering and general finishing work.
- #45 Carbon Steel Blade — Specified with a #45 carbon steel blade to provide the durability needed for regular professional or DIY use.
- Polished Anti-Rust Finish — A polished surface with anti-rust coating helps protect the blade and supports easier cleanup after the job.
- Comfortable Plastic Handle — The orange plastic handle has a broad, easy-grip shape that helps improve control during repeated passes.
