

Kseibi Foam Plastering Trowel 14 x 21cm

Smooth finishing with controlled handling

Kseibi · 282520

Highlights

- Black EVA construction for lightweight finishing work
- Glossy surface base for smooth movement across surfaces
- 14 x 21 cm size balances coverage and control
- Comfortable shaped handle for steady guidance
- Suitable for plaster smoothing and finishing tasks
- Useful for tiling and general surface preparation
- Designed for consistent, even hand pressure
- Easy-to-manage format for everyday site use
- Simple, dependable tool for trade or DIY projects
- Kseibi craft trowel for neat finishing results

Key Features

- **Black EVA Body** — Constructed from Black EVA for a lightweight, practical tool suited to regular finishing and smoothing tasks.
- **Glossy Surface Base** — The glossy base is designed to move cleanly over working surfaces for controlled finishing passes.
- **Comfortable Handle Shape** — The raised handle profile supports a secure grip, helping you guide the trowel with confidence.
- **Practical Working Size** — At 14 x 21 cm, the trowel offers a useful balance between surface coverage and manoeuvrability.
- **Versatile Finishing Use** — Well suited to plastering, smoothing and tiling-related finishing work where an even surface matters.
