

Kseibi Black EVA Foam Plastering Trowel 10 x 23 cm

Smooth control for clean finishing

Kseibi · 282570

Highlights

- Black EVA base for smooth finishing work
- Glossy surface base helps clean movement
- Black plastic handle for a secure grip
- 10 x 23 cm size for controlled coverage
- Lightweight design supports longer use
- Compact rectangular shape for easy handling
- Suitable for plastering and tiling tasks
- Helps refine finish coats with steady passes
- Practical tool for trade and DIY use
- Kseibi quality for reliable site performance

Key Features

- Black EVA Base — The working surface is made from black EVA, offering a lightweight, practical base for smooth plaster finishing.
- Glossy Surface Finish — A glossy surface base helps the trowel glide cleanly across the work area for controlled finishing passes.
- Comfortable Plastic Handle — The black plastic handle is shaped for a secure, comfortable hold to improve control during repeated use.
- Compact 10 x 23 cm Format — Its 10 x 23 cm size balances manoeuvrability and coverage, making it useful for detailed and general surface work.
- Made for Finishing Tasks — Ideal for plastering and related tiling accessory applications where a smooth, even finish is the goal.
