

Kseibi 75mm Crown Scraper Putty Knife

Compact control for scraping and filling

Kseibi · 282950

Highlights

- 75 mm blade width for controlled scraping and filling
- Made with #45 carbon steel blade
- Mirror-polished surface for smooth movement
- High quality tool steel construction
- Suitable for putty, scraping and surface prep
- Comfortable soft-grip style handle
- Textured handle helps improve control
- Compact size for repair and touch-up work
- Handle includes hanging hole for storage
- Broad blade face supports even pressure

Key Features

- 75 mm working width — The 75 mm blade size offers a practical balance of coverage and control for patching, smoothing and scraping smaller surface areas.
- #45 carbon steel blade — Built with a #45 carbon steel blade to provide dependable strength for everyday hand-tool tasks.
- Mirror-polished finish — The mirror-polished blade surface helps the tool glide more cleanly while supporting smoother application and scraping work.
- Comfort-focused handle — A shaped, textured soft-grip style handle helps you maintain a secure hold and better control during repeated use.
- Versatile multi-use tool — Use it for applying putty, removing loose material, smoothing filler and preparing surfaces before the next stage of work.
