

Kseibi Retractable Steel Razor Scraper 105mm

Compact scraping power in steel

Kseibi · 283280

Highlights

- 105 mm compact format for easy control
- Retractable blade design for safer storage
- Carbon steel blade for effective scraping
- Steel body offers a solid, durable feel
- Ideal for paint, adhesive and residue removal
- Slim profile helps in tighter working areas
- Suitable for surface prep and cleanup tasks
- Easy to keep in a toolbox or drawer
- Designed for precise one-handed use
- Practical hand tool for home or trade use

Key Features

- Retractable blade design — The blade retracts into the body when not in use, helping protect the edge and making storage more convenient.
- Carbon steel blade — Fitted with a carbon steel blade for dependable scraping performance on paint, adhesive and surface residue.
- Compact 105 mm size — The short overall length is easy to handle and gives better control for detailed scraping and cleanup work.
- Steel body construction — The metal body shown in the image provides a sturdy, durable feel suited to regular workshop and jobsite tasks.
- Versatile everyday use — A practical choice for surface preparation, decorating cleanup, sticker removal and general maintenance jobs.
