

Kseibi Wallpaper Scraper 4 x 12 in

Built for fast, controlled stripping

Kseibi · 283300

Highlights

- Designed for wallpaper, paint and residue removal
- Aluminum alloy head for durable jobsite use
- Uses SK5 blade for dependable scraping performance
- Blade size: 100 x 18 x 0.5 mm
- Stainless steel tube adds strength and rigidity
- Black TPR plastic-dipped handle for secure grip
- 4 x 12 in size offers reach and leverage
- Painted finish for a clean professional look
- Suitable for renovation, decorating and prep work
- Long handle helps improve control on flat surfaces

Key Features

- Aluminum alloy head — Built with an aluminum alloy head for a durable scraping platform suited to repeated surface preparation tasks.
- SK5 scraping blade — Uses an SK5 material blade measuring 100 x 18 x 0.5 mm for effective removal of wallpaper, paint and residue.
- Stainless steel tube body — The stainless steel tube construction provides strength while supporting steady pressure during scraping work.
- Comfortable TPR-dipped handle — A black TPR plastic-dipped handle offers a more secure and comfortable grip for improved control during use.
- Practical 4 x 12 in format — The 4 x 12 in size gives a useful balance of reach, leverage and maneuverability for wall and flat-surface prep.
