

Kseibi Adjustable Drywall Stilts Set 60-100 cm

Adjustable reach for overhead work

Kseibi · 286005

Highlights

- Adjustable height range of 60-100 cm
- Aluminum alloy tube construction
- Natural metal tube finish
- All-black plastic parts
- Orange fabric straps with buckle closure
- Designed for drywall and ceiling work
- Helps reduce ladder repositioning
- Tall twin-post stilt structure
- Wide foot bases shown for floor contact
- Supplied as a drywall stilts set

Key Features

- Adjustable working height — Set the stilts within the 60-100 cm range to suit different ceiling heights and overhead finishing tasks.
- Aluminum alloy tubes — The main tubes are made from aluminum alloy in a natural finish for a durable, jobsite-ready structure.
- Secure strap system — Bright orange fabric straps with buckle fasteners help hold the lower leg and foot in position during use.
- Stable foot assemblies — The broad black foot bases shown in the image are designed for floor contact while moving across indoor work areas.
- Built for interior trade work — A practical choice for drywalling, sanding, painting, taping and other repetitive overhead applications.
