

Kseibi 4" 100mm Acrylic Paint Roller Cover

Small Roller, Precise Control

Kseibi · 290089

Highlights

- 4" 100mm roller cover for compact, controlled painting
- Acrylic pile supports even paint pick-up and release
- Ideal for trim, edges, corners and touch-up work
- Useful on small walls, doors, cabinets and narrow areas
- Compact size helps improve control in tight spaces
- White roller cover as shown in the product image
- Full cylindrical cover shape for smooth rolling action
- Suitable for DIY decorating and professional use
- Supplied with nylon bag packing
- A handy spare cover for routine paint jobs

Key Features

- Compact 4 inch size — The 4" 100mm format is easier to guide in narrow or awkward areas where a larger roller would be less practical.
- Acrylic roller cover — Made with an acrylic pile to help pick up paint and apply it with steady coverage across smaller surfaces.
- Control for detail work — Well suited to edging, trim painting, small repairs and touch-ups where accuracy and maneuverability are important.
- Versatile decorating use — A useful option for doors, cabinets, skirtings and other compact areas that benefit from a smaller roller cover.
- Packed for convenience — Supplied in nylon bag packing for simple handling, storage and keeping a spare cover ready for the next job.
