

Kseibi Oil Feed Glass Cutter 180mm for 3-10mm Glass

Controlled scoring for 3-10mm glass

Kseibi · 291350

Highlights

- Oil feed glass cutter for smooth, controlled scoring
- Suitable for cutting 3-10mm glass
- 180mm length offers a balanced hand feel
- Black plastic body keeps the tool lightweight
- Textured grip section supports better control
- Slim pen-style shape is easy to handle
- Compact design fits neatly in toolboxes
- Includes dropper shown in the image
- Blister card packed for tidy storage
- Practical choice for workshop and repair tasks

Key Features

- Oil Feed Design — Designed to work with cutting oil for smoother scoring action and more consistent movement across the glass surface.
- For 3-10mm Glass — Sized for use on glass within the stated 3-10mm range, making it suitable for a variety of routine cutting jobs.
- Compact 180mm Length — The 180mm format gives a controlled, pen-like feel that is easy to guide during detailed or straight scoring passes.
- Textured Grip Area — The knurled grip section visible on the tool helps improve hold and finger control while cutting.
- Lightweight Plastic Body — Made with a plastic body to keep the cutter light in hand and convenient for regular workshop use.
