

KSEIBI General Duty Steel Caulking Gun 9 in / 220 mm

Reliable control for everyday sealing jobs

Kseibi · 291710

Highlights

- General duty caulking gun for everyday sealing tasks
- Steel construction for dependable jobsite durability
- Painted finish helps protect the tool body
- 9 in / 220 mm size suits common cartridge work
- Open-frame design for straightforward loading
- Trigger handle supports controlled bead application
- Orange body is easy to spot in your toolkit
- Suitable for caulk, sealant, adhesive and filler
- Useful for decorating, maintenance and repair jobs
- Designed for DIY users and trade professionals

Key Features

- Steel Body Construction — Made from steel for the strength and reliability needed in regular sealing, filling and fixing work.
- Painted Surface Finish — The painted finish adds a protective layer to the steel body and gives the tool a clean, professional look.
- General Duty Design — A practical choice for routine application of caulk, sealant and similar cartridge materials in everyday jobs.
- 9 in / 220 mm Size — Compact, versatile sizing makes it well suited to common decorating, repair and maintenance tasks.
- Control-Focused Handle Layout — The manual trigger handle helps you apply steady pressure for cleaner, more controlled dispensing.
