

Kseibi Steel Caulking Gun 220mm

Controlled sealant application made simple

Kseibi · 291765

Highlights

- Steel construction for dependable everyday use
- 220 mm body offers a compact, easy-to-handle format
- Trigger action helps deliver controlled sealant flow
- Open-frame design allows simple cartridge access
- Suitable for caulk, sealant and adhesive application
- Helps create neater beads around joints and edges
- Orange body is easy to spot in a toolbox
- Good for decorating, sealing and repair work
- Manual operation gives precise application control
- Designed for regular workshop or home improvement use

Key Features

- Steel Build — Made from steel for a sturdy, reliable feel suited to repeated caulking and sealing jobs.
- Compact 220 mm Size — The 220 mm format is easy to handle, helping with control during detail work and tighter spaces.
- Trigger-Controlled Application — The hand trigger mechanism supports steady pressure for smoother, more consistent sealant dispensing.
- Open-Frame Cartridge Support — The visible frame design keeps the cartridge accessible for straightforward loading and use.
- Bright Orange Body — The orange finish stands out clearly, making the tool easier to locate on site or in storage.
