

Kseibi Aluminum Alloy Basin Caulking Gun

Controlled sealing for basin and sanitary jobs

Kseibi · 291785

Highlights

- Aluminum alloy tube for durable everyday use
- Black powder-coated aluminum alloy handle
- Designed for basin and sanitary sealing jobs
- 380 mm length for leverage and reach
- Includes one white plastic nozzle
- Tube-style body supports controlled application
- Suitable for bathrooms, kitchens and maintenance work
- Helps apply neat, consistent sealant lines
- Trigger handle layout offers familiar operation
- Practical choice for DIY and trade users

Key Features

- Aluminum Alloy Tube — The tube is made from aluminum alloy to provide a durable, practical body for regular caulking and sealing tasks.
- Powder-Coated Handle — Its black powder-coated aluminum alloy handle is built for repeated use and a hard-wearing finish.
- Basin-Focused Application — Well suited to sealing around basins, sinks and sanitary fittings where controlled bead placement is important.
- 380 mm Overall Length — The 380 mm size gives you useful reach and leverage for smoother dispensing and easier handling.
- Supplied with Nozzle — Comes with one white plastic nozzle for precise sealant application straight out of the pack.
