

Kseibi Heavy-Duty 600ml Sealant Gun

Controlled sealing for 600ml packs

Kseibi · 291787

Highlights

- Designed for 600 ml sealant packs
- Three-bearing type for smoother trigger action
- Enclosed tube body supports clean handling
- Plastic-coated handle for improved grip
- Heavy-duty design for regular site use
- Helps apply consistent beads with better control
- Matte black tube with black body construction
- Orange handle stands out in the toolbox
- Suitable for sealing joints, gaps and seams
- Practical choice for decorating and finishing work

Key Features

- 600 ml capacity — Sized for 600 ml sealant packs, giving you a generous capacity for longer runs and fewer interruptions during application.
- Three-bearing mechanism — The three-bearing type design supports smoother operation and more controlled dispensing when applying sealant.
- Enclosed tube format — The tube-style body helps support the pack during use and offers clean, controlled handling on the job.
- Comfortable coated handle — An orange plastic-coated handle provides a more secure, comfortable grip for repeated squeezing and better control.
- Work-ready construction — With a black body, matte black tube and black plastic parts, this gun is built with a practical, durable jobsite-focused design.
