

Kseibi 9" ABS Caulking Gun

Lightweight control for clean sealing

Kseibi · 291790

Highlights

- ABS construction keeps the tool lightweight
- 9" 220 mm size for everyday sealing tasks
- Suitable for caulk and sealant application
- Trigger handle supports controlled dispensing
- Open-frame design for simple cartridge loading
- Bright orange body is easy to spot on site
- Comfortable grip shape for steadier handling
- Useful for decorating, repairs and maintenance
- Helps apply neat beads around gaps and joints
- Good choice for DIY and professional use

Key Features

- **ABS Body** — Made from ABS for a lightweight feel that is easier to handle during repeated caulking and sealing work.
- **9 Inch 220 mm Size** — Practical tool length for common decorating, finishing and repair applications around the home or jobsite.
- **Controlled Trigger Action** — The trigger-style mechanism helps you guide sealant flow more accurately for cleaner, more consistent application.
- **Open-Frame Design** — The open frame shown in the tool design keeps operation straightforward and makes cartridge placement simpler.
- **High-Visibility Finish** — Finished in orange ABS, making the caulking gun easier to find in tool storage or a busy work area.
