

Kseibi Tile Leveling System Installation Pliers

Faster tile leveling, better control

Kseibi · 292005

Highlights

- Designed for tile leveling system installation
- Steel construction for jobsite durability
- Orange 158C handles for high visibility
- Helps apply consistent pressure to wedges
- Supports flatter tile alignment
- Adjustment knob allows controlled operation
- Suitable for wall and floor tiling work
- Comfortable hand-operated squeezing action
- Easy to spot in tool bags and on site
- Supplied in blister card packing

Key Features

- Steel Tool Body — Made from steel for dependable strength and durability in repeated tiling work.
- High-Visibility Handles — Orange 158C handles stand out clearly, making the tool easy to find on busy jobs.
- Controlled Tensioning — Helps install tile leveling wedges and clips with a steadier, more repeatable squeeze.
- Adjustment Knob — The visible adjustment control supports better setup for smoother, more consistent use.
- Installer-Friendly Design — A hand-operated format that suits tile leveling work on floors, walls and general installation tasks.
