

Kseibi 1.5 mm Tile Leveling Spacer System Set, 50 Piece

Level and space tiles in one step

Kseibi · 292070

Highlights

- 50-piece tile leveling spacer system set
- Helps align adjacent tiles during installation
- Maintains a consistent 1.5 mm tile joint
- Supports reduced tile lippage
- Plastic construction for practical site use
- Includes a 1.5 mm iron part
- Black rotating section for easy adjustment
- Orange base is easy to spot while working
- Suitable for wall and floor tiling projects
- Designed for cleaner, more even tile finishes

Key Features

- 1.5 mm spacing control — Designed to maintain a consistent 1.5 mm joint between tiles for a cleaner finished layout.
- Leveling and spacing combined — Helps with tile alignment while also acting as a spacer, simplifying installation steps.
- 50-piece set — Supplied as a 50-piece set for tiling jobs that need repeatable, consistent placement.
- Plastic body with iron part — Built with a plastic construction and a 1.5 mm iron part for practical installation use.
- High-visibility two-color design — Black rotating part and orange base make the pieces easy to identify and handle during work.
