

Kseibi Blue Bitumen Polymer Waterproof Membrane Roll 1m x 10m

Reliable waterproofing in a practical roll

Kseibi · 295906

Highlights

- Bitumen/polymer membrane for waterproofing applications
- 1m x 10m roll covers broad surface areas efficiently
- Blue sheet design is easy to identify on site
- Flexible roll format supports straightforward handling
- Supplied on a paper tube for neat storage and transport
- Designed as a waterproofing sheet barrier
- Suitable where continuous moisture protection is needed
- Roll form helps reduce joins across larger areas
- Practical choice for trade and serious DIY projects
- Kseibi membrane built for dependable site use

Key Features

- Bitumen/Polymer Construction — Made from bitumen/polymer material to provide a waterproofing sheet with flexibility and dependable moisture resistance.
- 1m x 10m Roll Size — The generous roll format helps cover wider areas efficiently, making it practical for larger waterproofing tasks.
- Waterproofing Sheet Design — Designed specifically as a waterproofing membrane to help create a continuous barrier against water ingress.
- Easy to Handle — Supplied in roll form on a paper tube for convenient storage, transport and positioning during installation.
- Blue Finish — The blue outer surface is easy to distinguish during handling and application on site.
