

Kseibi Silver Bitumen Polymer Waterproof Membrane Roll 1m x 10m

Reliable waterproofing in a practical roll

Kseibi · 295908

Highlights

- Bitumen/polymer membrane for waterproofing tasks
- Silver finish for a clean, professional look
- 1m x 10m roll covers broad surface areas
- Supplied on a paper tube for practical handling
- Flexible sheet format suits large-area coverage
- Helps create a protective barrier against water
- Ideal for repair, maintenance and new work
- Wide roll helps reduce joins across the surface
- Easy to transport and store before installation
- Built for dependable general waterproofing use

Key Features

- Bitumen/Polymer Construction — Combines bitumen with polymer material to form a flexible waterproofing sheet for surface protection.
- 1m x 10m Roll Size — Wide and long roll format helps cover larger areas efficiently with fewer interruptions during application.
- Silver-Faced Finish — Provides a neat, visible surface that gives the membrane a clean and professional appearance.
- Waterproofing Sheet Format — Designed specifically as a sheet membrane for creating a continuous barrier against water ingress.
- Paper Tube Core — Supplied rolled on a paper tube to support easier handling, storage and transport before installation.

Specifications by Variant

Specification	295908
Color	Silver
Size	1m*10m (paper tube)
Material	Bitumen/Polymer

Feature	Waterproofing Sheet
