

Kseibi 2m Wooden Folding Ruler

Classic measuring, compact folding convenience

Kseibi · 303590

Highlights

- 2m measuring length for common site and workshop jobs
- Traditional multi-section ruler for everyday measuring
- Wooden folding design stores compactly between uses
- No batteries or electronics required
- Rigid sections help with measuring along straight edges
- Easy to carry in a toolbox, apron or work pocket
- Clear printed graduations for quick reading
- Suitable for trade and DIY applications
- High-visibility coloured sections stand out on the job
- Hanging card packaging for display or storage

Key Features

- 2 Metre Measuring Length — Provides a full 2m range for measuring timber, openings, surfaces and general workpiece dimensions.
- Wooden Folding Construction — Traditional folding design gives you a compact tool that is easy to transport and convenient to store.
- Rigid Measuring Format — The folding rule format helps when measuring across flat surfaces and along edges where a flexible tape can be less convenient.
- Easy-Read Printed Scale — Bold, clearly printed graduations visible on the ruler support fast checks and straightforward marking out.
- High-Visibility Sections — Contrasting red, yellow and blue sections make the ruler easy to spot in a toolbox, workshop or on site.
