

KSEIBI 24in 17T Carbide Concrete Saw

Built for tough concrete cutting

Kseibi · 311040

Highlights

- 24in / 600 mm saw for long cutting strokes
- 17T tooth pattern for aggressive cutting action
- Black 65MN blade for dependable durability
- Made from high quality tool steel
- Designed for concrete and abrasive materials
- Orange and black handle for a secure grip
- Open handle shape supports controlled movement
- Protective tooth cover included
- Rigid construction for demanding site work
- Practical choice for repair and construction tasks

Key Features

- 24in Cutting Length — The 24in (600 mm) size provides a longer stroke, helping cover more material with each pass.
- 17T Tooth Design — The 17T configuration supports aggressive cutting performance for concrete and other abrasive applications.
- 65MN Blade — Built with a black 65MN blade for strength and durability in demanding working conditions.
- High Quality Tool Steel — The saw is made from high quality tool steel to handle regular use on tough jobsite tasks.
- Protective Tooth Cover — A fitted cover over the teeth helps protect the blade during storage, transport and handling.
