

Kseibi 200mm Extendable Arm Hacksaw

Compact cutting with controlled handling

Kseibi · 311050

Highlights

- 200mm hacksaw for compact, controlled cutting tasks
- Alloy steel construction for dependable everyday use
- Extendable arm design adds practical flexibility
- Comfort-shaped orange handle for a secure grip
- Black saw blade fitted in an open frame design
- Black finish body for a clean professional look
- Suitable for workshop, repair and maintenance tasks
- Compact size stores easily in tool kits and benches
- Blade fixing hardware supports easy setup and adjustment
- Supplied in hanging card packing for retail display

Key Features

- Alloy Steel Frame — Made from alloy steel to provide a strong, reliable structure for routine cutting and workshop use.
- Extendable Arm Design — The extendable arm configuration adds flexibility to the tool’s setup for practical day-to-day cutting tasks.
- Comfortable Grip Handle — The shaped orange handle is designed to sit securely in the hand for improved control during use.
- Compact 200mm Size — Its 200mm format is easy to handle, easy to store and well suited to tool boxes, benches and mobile kits.
- Retail-Ready Packing — Supplied in hanging card packing, making it suitable for straightforward display, storage and presentation.
