

Kseibi 3-Piece Steel File Set, 8 in / 200 mm

Three essential file shapes in one set

Kseibi · 311485

Highlights

- 3-piece steel file set for shaping and smoothing
- 8 in / 200 mm file length for general hand filing
- Includes three different file profiles
- Suitable for flat, edge and detailed filing tasks
- Comfort-grip handles support better control
- Textured handle surface helps reduce slipping
- Useful for deburring, refining and cleanup work
- Good choice for workshop, garage and maintenance use
- Designed for controlled manual material removal
- Black and orange handles are easy to identify

Key Features

- Three File Profiles — Includes three different file shapes to handle a wider range of smoothing, shaping and detail tasks.
- 8 in / 200 mm Size — A practical file length for everyday bench work, repairs and controlled hand-finishing jobs.
- Steel File Construction — Built as a steel file set for routine material removal, edge cleanup and surface refinement.
- Comfort-Grip Handles — Contoured black and orange handles are shaped for a steadier, more comfortable hold during use.
- Versatile Workshop Use — Well suited to deburring, fitting, refining and general maintenance tasks across a range of hand-filing jobs.
