

KSEIBI Multirasp Plane with Adjustable Handle, 250 x 40mm

Controlled shaping with adjustable comfort

Kseibi · 311740

Highlights

- High carbon steel construction
- 250 x 40mm size for controlled hand use
- Adjustable handle setup for working comfort
- Front palm grip supports guided strokes
- Raised rear handle helps two-handed control
- Rasp-style surface for shaping and trimming
- Compact body suits tighter work areas
- Designed for steady stock removal
- Simple hand-tool operation with solid grip
- Supplied in hanging card packing

Key Features

- High Carbon Steel Build — Made from high carbon steel for durable, reliable performance in shaping and material removal tasks.
- Adjustable Handle Design — Handle positioning can be adjusted to help improve comfort, leverage and control while you work.
- Two-Handed Grip Layout — A front palm knob and rear handle support stable guidance and more confident pressure through each pass.
- Compact 250 x 40mm Format — The practical size offers a good balance of coverage and maneuverability for detailed hand-tool work.
- Rasp-Style Working Surface — Designed for shaping, trimming and controlled stock removal on surfaces that need hand-finished adjustment.
