

Kseibi OPTIWOOD 3-Piece Steel File Set, 8 in / 200 mm

Three essential file shapes in one set

Kseibi · 312156

Highlights

- 3-piece file set for shaping, smoothing and finishing
- Made from high carbon steel for dependable durability
- 8 in / 200 mm file size suits general workshop use
- Includes three different file profiles for versatility
- Wooden handles provide a comfortable, secure grip
- Suitable for flat areas, edges, curves and detail work
- Defined file teeth support controlled material removal
- Brass-tone ferrules reinforce the handle connection
- Tool tray packing helps keep the set organised
- Useful for maintenance, repair and fitting tasks

Key Features

- Three File Profiles — Includes three distinct file shapes visible in the set for working on flat surfaces, edges, curves and narrower sections.
- High Carbon Steel Construction — Each file is made from high carbon steel for lasting strength and reliable performance in regular workshop use.
- Comfortable OPTIWOOD Handles — Shaped wooden handles offer a natural feel in the hand and help improve grip and control while filing.
- Practical 8 in Size — The 8 in / 200 mm length provides a versatile balance of reach, control and everyday usability.
- Tool Tray Packed — Supplied in tool tray packing to keep the set together for storage, transport or presentation.
