- ABS material housing for everyday durability
- PROGRIP design helps improve handling
- Textured slider supports controlled blade adjustment
- Bright orange body is easy to spot
- Suitable for cartons, trim work and scoring
- Compact hand tool for toolbox or bench use
- Black blade channel adds a work-ready look
- Practical choice for trade and DIY users

Key Features

- 18mm utility knife format — Designed in the widely used 18mm size for versatile cutting across common jobsite, workshop and household tasks.
- SK5 blade — Supplied with an SK5 blade to handle everyday cutting, trimming and scoring work with dependable performance.
- ABS housing — The body is made from ABS material, offering a practical balance of durability and light everyday usability.
- PROGRIP handling — The shaped grip and textured surfaces help provide a steadier hold for better control during repeated cuts.
- High-visibility finish — The orange housing stands out clearly in toolboxes, on benches and around busy work areas.
