

Kseibi 18mm Snap-Off Aluminium Utility Knife

Built for clean, controlled cutting

Kseibi · 313020

Highlights

- 18mm snap-off utility knife for versatile cutting tasks
- Aluminum alloy casing for durable everyday use
- SK5 blade head supports sharp, precise cutting
- 0.5 mm blade thickness for dependable performance
- Snap-off blade design renews the cutting edge quickly
- Suitable for site, workshop and home use
- Solid metal body gives a sturdy in-hand feel
- Good choice for cardboard, film and packaging cuts
- Ridged body styling helps with secure handling
- Designed for repetitive cutting with less downtime

Key Features

- Aluminum Alloy Body — The knife casing is made from aluminum alloy for a durable, hard-wearing build suited to regular professional and DIY use.
- SK5 Blade Head — Equipped with an SK5 blade head to support sharp cutting performance for general trade, workshop and packaging tasks.
- 0.5 mm Blade Thickness — The 0.5 mm blade thickness provides a practical balance of cutting precision and everyday usability.
- Snap-Off Convenience — Segmented snap-off blade design lets you expose a fresh edge quickly, helping maintain clean cuts with minimal interruption.
- Versatile 18 mm Format — The 18 mm size is a popular all-round choice for heavier-duty utility cutting across a wide range of common materials.
