

Kseibi Aluminium Retractable Utility Knife 15mm

Solid alloy body. Simple everyday cutting.

Kseibi · 313025

Highlights

- Aluminum alloy body for durable day-to-day use
- Retractable blade design for safer storage
- Compact 15 mm format for easy handling
- Suitable for general workshop and site cutting
- Solid metal body offers a secure, weighty feel
- Simple slider operation for quick blade extension
- Clean tapered shape helps with controlled cutting
- Screw-fixed body construction for a practical build
- Lanyard hole for convenient hanging or tethering
- Ideal for toolboxes, site bags and bench use

Key Features

- Aluminum Alloy Construction — The body is made from aluminum alloy for a strong, durable feel suited to regular professional and DIY use.
- Retractable Blade Format — The blade retracts into the body when not in use, helping with safer storage and transport between jobs.
- Compact 15 mm Size — Its 15 mm format keeps the knife easy to carry, easy to store and comfortable for routine cutting tasks.
- Controlled Handling — The shaped metal housing is designed to support steady handling for trimming, opening and general utility work.
- Toolbox-Ready Design — With a robust body and simple operation, this knife is a practical addition to workshop, site and maintenance kits.
