- Helps restore clean, efficient cutting
- Suitable for compatible 18 mm utility knives
- Practical stock for site, workshop or van
- Quick replacement for worn or dull blades
- Designed for general-purpose trimming and scoring
- Compact pack for easy tool storage

Key Features

- SK5 Blade Material — Manufactured from SK5 blade material for reliable cutting performance in regular utility knife tasks.
- Standard 18 mm Format — Each blade measures 100x18x0.4 mm, making it suitable for compatible utility knives that use this common size.
- 10-Piece Pack — Supplied as a 10-piece pack so you can keep replacement blades close at hand for ongoing work.
- Snap-Off Segments — The segmented blade design visible in the image allows you to snap off a used section and reveal a fresh edge.
- Everyday Jobsite Utility — A practical choice for trimming, scoring and general cutting tasks in workshops, warehouses, on site or at home.
